- Applications of technologies in the field and through research studies.

## Dates of the MATES Summer Experience

All times are 8:00 AM to 3:00 PM

Session 1: July 11–14\*

Session 2: July 18–21 \*

Session 3: July 25–28

Session 4: Aug. 1–4

This experience is open to MATES students (Class of 2025 and 2026 members) and the first two weeks are open to rising 7th, 8th and 9th grade students. Instruction will be by our MATES and our experienced summer instructors. The program is designed to provide field opportunities and hands-on experiences that haven't been available.

# Marine Academy of Technology and Environmental Science

## 2022 STEM Summer Experience

Experience Barnegat Bay this summer through this interactive field experience.

“A hands-on STEM Program for middle and high school students“

The Marine Academy of Technology & Environmental Science (MATES) is a school within the Ocean County Vocational Technical School District. Established in the fall of 1994, the program is open to high school students throughout Ocean County. Qualified students can also earn college credits through two local colleges. MATES graduates usually pursue careers in the natural science fields, medicine and engineering by attending competitive colleges. This active program focuses on major concepts and requires a motivated, enthusiastic learner. It is supported by numerous marine and environmental experts, engineers, health professionals, agencies, and learning institutions throughout the east coast.
